**Conference Announcement**

Held every 4 years on the "Les Embiez" island, in the south of France, HTCPM is a leading conference in the field of High Temperature Corrosion of Materials. It includes Corrosion mechanisms in aggressive environments, Carburization and metal dusting , Mixed oxidants, Steam and water vapor, Supercritical fluids, Hot corrosion, Coupling with mechanical loading, High temperature materials development, Coatings (including thermal barriers), Alloys and intermetallics, Ceramics and composites, Modeling and lifetime prediction, Advances in characterization techniques

With applications to :

Aero- and Land-based gas turbines, Reciprocating (diesel) engines, Air- and oxy-fired boilers, Incinerators, burners, H<sub>2</sub> and syngas production, coal gasification, Fuel cells, Heat exchangers, gas separation & cleanup, Process industries (chemical, steel, glass, pulp & paper), Nuclear industry.

## Call for papers

All HTCPM papers, including posters and oral keynotes and invited talks, will be published on a CD/USB available at the beginning of the conference.

**NEW!** Moreover, papers will be also reviewed for publication in a special issue of a reference journal in the field : “« Oxidation of Metals » <http://www.springerlink.com/content/0030-770x/> indexed by Thomson ISI and Scopus.

## The deadline for abstracts proposals is the 26<sup>th</sup> of October 2011

Abstracts are 2 pages long and must use the abstract template available on [www.htcpm2012.com](http://www.htcpm2012.com)

HTCPM2012 is Conjointly organized by :

**UNIVERSITÉ DE TOULOUSE-INPT , OAK RIDGE NATIONAL RESEARCH LABORATORY , NANCY UNIVERSITÉ , INSTITUT POLYTECHNIQUE DE GRENOBLE , UNIVERSITE DE BOURGOGNE, DIJON**

with the support of :

**THE ELECTRIC POWER RESEARCH INSTITUTE (EPRI) , OFFICE OF NAVAL RESEARCH GLOBAL (ONRG) , LE CENTRE FRANÇAIS de l'ANTICORROSION (CEFRACOR) , THE EUROPEAN FEDERATION OF CORROSION (EFC) (event N° 342) ,SAFRAN, VEOLIA, SETARAM, AIR LIQUIDE, VALLOUREC, ...**
